THE BANGOR DAILY
WHIG AND COURIER
For 1880
Commenced its Forty-Seventh Volume with the New Year, with all departments fully equipped and prepared to maintain its position as one of THE LEADING DAILY PAPERS OF NEW ENGLAND. THE WHIG AND COURIER receives all the telegraphic news of the *Maine Associated Press*, and has an extensive corps of correspondents throughout the State. The Publishers aim to make it in all respects a
First Class Family Newspaper,
devoting care to the presentation of entertaining and instructive news and literary matter; to the encouragement of Agriculture, manufacturing and other home interests; with original and selected stories and poetry, and choice miscellany.
Its Regular Reports
will give the proceedings of Congress and the events at Augusta this winter will be chronicled daily by a thoroughly-informed special correspondent.
IN THE POLITICAL FIELD
the WHIG AND COURIER will continue to advocate and uphold the Principles of the Republican Party, while claiming to be independent, in the highest and best sense of the word. Fearless and outspoken in its treatment of all public questions and firmly maintaining what they believe to be *right*, they will avoid intolerance and make their appeals to the understanding rather than to prejudice. The Presidential election and the important issues it involves,—the proceedings of Congress and of our State Legislature,—the great activity and improvement in all the industrial and business departments of the country, will make the coming year one of the most exciting and important in the history of the country, and the WHIG AND COURIER congratulates itself that the Republican Party of the Union will enter the year 1880 united upon the platform of Principles which that paper has steadfastly maintained while so many wavered.
THE WHIG AND COURIER will be sent by mail postage-paid, at the following rates, invariably in advance:
$8.00 per Year; $4.00 for 6 mos; $2.00 for 3 mos.
$1.50 for the session of the Legislature.
THE BANGOR WEEKLY COURIER
is the largest weekly paper published in New England. Every issue is accompanied by a two-page Supplement, making a newspaper of FORTY-EIGHT COLUMNS almost entirely devoted to reading matter. It contains all the latest telegraph news up to the hour of going to press, and gives the substance of a whole week's edition of the Daily, including Ship News, Produce, Brighton Cattle and other Markets, with a large amount of family reading.
Terms, postage-paid, in advance:
$2.00 per year; $1.00 for 6 mos.; 50 cts. for 3 mos. Clubs in any one town: 15 copies for 1 year, $25.25; 25 copies 1 year, $40 00; 50 copies 1 year, $75.00, with copy free to person remitting money for the club.

NAVIGANTIN!
A Certain Preventive and Cure for
NAUSEA & SEA-SICKNESS!
Read the following Testimonials:
BOSTON, Mass., Feb. 20, 1880.
The "Navigantin" was a great success. We had a rough passage up and everybody sick except a few who had your medicine. I am always sick but this time I took a few doses of the "Navigantin" and enjoyed my smoke and meals as well as if ashore; all my family used it and had not the slightest symptom of Sea-sickness. SAM'L W. ELDRIDGE, W. U. Tel. Co., 109 State St., Boston.
NEWARK, N. J., Nov. 17th, 1879.
To whom it may concern: This certifies that I have tried "Navigantin" for Sea Sickness, and have found it to be, as claimed for it, a sure preventive of that terrible affliction.
WM. F. BAILEY, Lumber Merchant, Newark, N. J.
ASTOR HOUSE, New York, Feb. 27, 1880.
Having been troubled with sleepless nights and consequent nervous exhaustion, I tried the "Navigantin" you sent me for Sea Sickness, and found perfect relief. I now have refreshing sleep and a clear head. JOHN F. STROTHER.
ANNAPOLIS, N. S., Dec. 3d, 1879.
In crossing the bay to Digby in a severe storm, it was very rough but I was not sick as usual, and derived great benefit from the "Navigantin," which I can heartily recommend to others. Should be unwilling to go to sea without it, and believe "Navigantin" will prove a great blessing to persons who suffer with Sea Sickness. SAMUEL BOOTHBY, Agent Am. Bible Society, Lewiston, Me.

A RETRACTION.

The Portland *Argus*, which has been sued by W. H. Bigelow, Esq., of Augusta, for $10,000 for libel in connecting his name with bribery charges, in its Wednesday's issue quotes the *Kennebec Journal's* indignant denial, and makes this editorial retraction:

The editor of the *Argus* has no personal acquaintance with Mr. Bigelow, never met him, so far as recollected, and certainly has no desire or intention to do him the least injustice. We therefore accept the disclaimer of the *Journal* in his behalf as settling the question; and so far as anything we have said can be construed as referring to and implicating him, or reflecting upon his character, we cheerfully retract it as an injustice to him which we sincerely regret.

ATTACKING THE CITADEL OF LAW.

[From the New York Tribune.]

The profound respect which the American people entertain for the decisions of the Supreme Court has its root in a feeling which is deeper than the general reverence for law that characterizes the race. The development of a final tribunal to pronounce judgment on legislative enactments themselves, and declare whether they are binding or void, is the noblest result of modern political progress, and the people instinctively appreciate it as one of the richest attainments which has been gained in the cause of constitutional liberty. More than this. The Federal courts constitute our distinctive guarantee of national unity. When the articles of confederation were superseded by the Constitution the Federal judicial system was recognized as the one element in the new compact which supplied the cohesive force for lack of which the old confederacy failed. This authoritative tribunal was established not only to protect the States and the individual citizen from Federal aggression by its power to fix the bounds which Federal force could not exceed, but at the same time to insure to the Nation a life and vigor peculiarly and exclusively its own, by defining the limits within which the Federal authority is supreme. It is owing to this vital function of the Federal courts in our system of government that any attack upon them has been rightly considered by the people a blow aimed at the national life. In their eyes any obstruction offered to the practical enforcement of the decrees of the Supreme Court is a political crime, and a crime which they will be swift to resent and slow to forgive.

In view of these facts it is amazing that the Democrats in Congress should have dared to make a stand against the appropriation for the special deputy marshals, and thus outrage the most profound political convictions of the country. And this attitude, it must be remembered, did not measure the full malignancy of the attack upon the Court. For Mr. McMahon, who does not appear to be a unique phenomenon, but a true representative of the purposes of the majority, declared that they would not be content with a refusal to meet the deficiency for the special deputies, but that they would vote no supplies for the officers of the Court during the current year. It is true that there has been an apparent abandonment of this position, but how long will it be before it is again assumed? Some of the most active Democrats in the House—Messrs. Blackburn, Hurd, Hooker, Knott—opposed to the end any surrender. Mr. Hurd now openly declares his belief that if he and those who sympathized had fought the so-called compromise in debate instead of voting against it in silence, they would have defeated it. Mr. Springer, who was one of the busiest of the busy in urging his fellow-Democrats to support the compromise, frankly says to our Washington correspondent, that it seemed impossible "to hold the party together," and that he "did not feel safe one moment" until the bill had passed. The fight between the advocates and opponents of the new Democratic policy is to be bitterly waged in the Senate, with all the chances in favor of those who want to defy the law and insult the Supreme Court. Of Course, no practicals party advantage is to be gained by the course they urge. No one dreams that there will be any failure to enforce the election laws, which have been pronounced constitutional by the ultimate authority. The President will appoint supervisors and deputies as he is bound by his oath to do, and the Democrats will suffer all the disadvantages of an honest vote so far as these Federal officers are able to prevent fraud at the polls. The attempt to defeat the operation of the laws will prove utterly futile, and the would-be nullifiers will gain not even a momentary partisan benefit to compensate in the slightest measure for the odium which their lawlessness will bring upon them.

It would naturally be supposed that even a Democratic Congressman could not forget within a single year the humiliation which the majority suffered in its will struggle with the Executive, and its endeavor to starve the Government into submission. But in spite of that disastrous lesson the Democratic party now seems likely, in spite of all warnings and in spite of one fierce effort at self-restraint, to place itself in open hostility to the orderly procedures of the Supreme Court. This challenge the people would promptly meet. They would meet it as they met secession and other Democratic attacks upon the integrity of the Government. The party which is mad enough to dare such an assault upon the very citadel of law is doomed already.

A New York Greenback-Communistic organ has been sending out offers to furnish a copy for 25 cents to any person who would before April 1st make and report a canvass of the Presidential preferences of persons doing business at their stores or offices. A correspondent writes us from Mariaville that a three days' canvass of every person met in a town of 115 votes that gave a fusion majority of 5 last September, resulted: 38 for Blaine; 2 for Grant and 10 Fusion.

The Boston *Transcript* apologizes for nullification in the South, secured by a system of terrorism established by bands of assassins, on the ground that it is a popular movement, the will of the people being paramount to constitutions and laws! —*Concord Monitor.*

REMEDIES. The success attending the use of these great remedies in the treatment of affections of the skin and scalp with loss of hair is astonishing. From every part of the country come the most grateful acknowledgements of what might be called miraculous cures. Rosser, Weeks & Potter extend their thanks to all who have spoken a good word for Cuticura, Cuticura Soap and Cuticura Resolvent, and will thankfully receive reports of new cases wherever they occur.

SALT RHEUM ON BODY *and Limbs. Obliged to go about on Crutches. Now cured by Cuticura.* Messrs. Weeks & Potter: Gentlemen,—In justice to those who may suffer as I have suffered, and as a grateful acknowledgement of the cure I have received from the use of the Cuticura remedies, I voluntarily make the following statement:—I have been a sufferer from my body and one leg in a very aggravated form for eight years. No kind of treatment, or medicine, or doctors' bills, this time, did me any permanent good. My friends in Malden and elsewhere know that I have been a great sufferer, and that my condition at times has been such as to make me despair of ever being able to find a cure, or even a relief. In fact, when I began the use of Cuticura, my limb was so raw as I tender that I could not bear my weight on it without the skin coming off in shreds, and was on my crutches so as to be obliged to go about on crutches. I commenced to use the Cuticura in April, and at once realized its beneficial effects. It gradually drew the inflammation and humor to the surface, and, as fast as it appeared, healed it. At times large quantities would come to the surface, causing burning heat, intense pain, swelling, and itching; which, under the constant use of Cuticura, would rapidly subside and heal. Each time these outbreaks grew less and less severe, and gradually disappeared, leaving me perfectly cured. I used the Cuticura five months, and took but three boxes of the time, which was the only remedies I used. I think the Resolvent a very strengthening and purifying medicine to take in such extreme cases as mine, because the disease is so weakening to the system. Very gratefully yours, MRS. ASA R. BROWN. Malden, Mass., Oct. 18, 1878.

EGZEMA OF THE HANDS. Cured. Interesting Letter from a well-known Attorney. Editor New Orleans Picayune: Sir,—Since the fall of 1877, up to the last three weeks, I have been troubled with an eruption of the skin, which the doctors called by various names, but which is generally known by the name of Eczema or Salt Rheum. The principal part of the attack was on the hands, which at times, especially during the winter time, were very bad. At times the disease threatened to spread from my hands and envelop my whole body. Doctors have been consulted in Philadelphia, Washington and in this city, with no more success than a temporary relief. After considerable expense, and much pain and suffering, I had come to the conclusion that I wound, as the saying goes, have to grin and bear it. About four weeks ago I read in the Picayune the advertisement of Cuticura, for sale by the well-known druggist, Mr. Lyons, and resolved to try it. I purchased a fifty cent box, and before it was half used the disease was entirely eradicated, and I feel certain that mine is a permanent cure. My object in sending you this is that others may known to other sufferers the value of Cuticura and thus benefit, if ever so little, suffering humanity. Yours truly, F. E. CABROL, Attorney and Counsellor at Law. 33 Camp St., New Orleans, Dec. 25, 1878.

The CUTICURA REMEDIES are prepared by WEEKS & POTTER, Chemists and Druggists, Boston, and sold by all Druggists. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

FORTY-SIXTH CONGRESS—Second Session.

Senate.

WASHINGTON, March 24.

A resolution by Mr. Hill, of Ga., for the appointment of an assistant librarian of the Senate, was opposed by Mr. Edmonds, on the ground that up to March, 1879, one librarian had been enough and the present incumbence resulted from the ejection of efficient officers to make places for political favorites. The resolution passed.

The bill incorporating a National Educational Association was taken up.

Mr. Carpenter opposed the bill. The morning hour expired. The Geneva award bill was taken up and Mr. Kernan spoke upon it.

Mr. Blaine offered a petition of Alfred Nutt and sixty others of Thomaston, asking inquiry into the legality of the East River bridge. The original act of Congress, said Blaine, which gave permission for the construction of that bridge, contained a proviso that it be so constructed as not to obstruct, impare, or injuriously modify the navigation of the river. It is found that all vessels having spars or masts of 120 feet are unable to pass under the bridge, and this height embraces a great majority of the shipping, ships, barks and large schooners. It is a common highway between New England, New York and New Jersey. Mr. Blaine said further that these petitioners came from one of the largest commercial towns, largest in shipbuilding of any town in the United States per capita, whose business is almost entirely navigation, and all others engaged in it are feeling already great alarm as to the possible and permanent effect of that structure. He knew nothing himself of the facts embraced in the petition, but it came from a very high source and he asked it might be referred to the Committee on Commerce, it was a subject that should be inquired into before it gets too far for remedy, if it be not already too far. So referred.

Mr Kernan supported the bill holding that insurers stand in the same position toward the fund as insured owners would have stood had they not been insured.

Senate went into executive session and adjourned.

House.

Mr. Conger objected to any proceedings except the submission of privileged questions to the House.

Debate occurred on the question whether the journal of yesterday must be read before the journal of Monday could be approved in connection with the alteration in the journal made necessary by the improper reference of Mr. Townsend's bill. The question was finally submitted to the House.

The question as to whether yesterday's journal be read was negatived by a party vote after considerable confusion. Debate was commenced on Mr. McLane's proposition of yesterday to discharge the Committee on Revision of Laws from the consideration of Mr. Townsend's bill and to refer it to the Committee on Ways and Means, the question being whether or not the proposition presented a question of privilege. After discussion a vote was taken and the question decided in the affirmative. Demands were then made by Mr. McLane for the previous question, but were met by obstructive motions.

Several motions to adjourn were lost while roll calls were being taken. Efforts were made on both sides for a compromise to avoid an all night session. One motion to adjourn was carried by a viva voce vote, but the minority succeeded in getting the yeas and nays on it and it was defeated.

The call of the House was made, doors closed, and warrants issued for the arrest of members absent without leave. A number of members were brought in and arraigned and the usual amusing scenes were enacted as they gave their excuses, and were discharged without costs.

The House at midnight adjourned.

GREAT FIRE IN SAN DOMINGO.

Disgraceful Scenes—Pillaging and Plundering.

SAN DOMINGO, March 25. A fire at Saward on the 9th inst. gutted the custom house and destroyed piers, warehouses, etc, to the value of $150,000. Quantities of tobacco, coffee, etc., were consumed. The fire covered about six acres. Not a dollar of insurance. Nearly all the merchants are ruined. The most disgraceful scenes of pillage followed the fire. After the fire was out the place became a perfect pandemonium. The plunderers roamed over the scene and stole what the flames had spared.

About forty buildings, comprising the greater part of the business portion of the town, were destroyed. The fire originated in a dwelling, and as there were no facilities for extinguishing it the flames could not be checked.

ENGLAND.

The Queen's Speech.

LONDON, March 24. The Queen in her speech to-day in the House of Lords, proroguing Parliament, says she is induced by considerations of public policy and convenience to select this period of the session for releasing Parliament from its duties with a view to its immediate dissolution and the issue of writs for a general election. She tenders her warm acknowledgement to Parliament for the zeal and ability displayed and especially for the manner in which the policy of the government has been upheld. She says that foreign relations are favorable to the maintenance of peace in Europe, and expresses confidence in the speedy settlement of affairs in Afghanistan and of the relief measures for Ireland. She says she trusts they will be accepted by Irish subjects as proof of the ready sympathy of that Imperial Parliament. She rejoices in the present signs of general improvement in commerce and agriculture. The speech concludes with an invocation of Divine guidance in the coming election. A very slim audience listened to the speech. The Queen leaves for Germany to-morrow.

Members will deliver their lunch baskets to the dinner committee immediately on their arrival, to prevent any unnecessary delay at the dinner hour.

A SEVERE STORM. A remarkably severe snow storm for this season of the year set in at about twelve o'clock Tuesday night, and continued yesterday and last night without intermission. The weather was mild and the snow very damp, else the high wind that prevailed a portion of the time would have drifted the roads badly. The snow melted very rapidly, but at eleven o'clock last night some eight or nine inches had accumulated.

HUMPTY DUMPTY. Owing to the severe storm that prevailed last evening the entertainment at Norombega Hall, by Tony Denier's Humpty Dumpty Combination, was rather thinly attended. As on the previous evening, however, the performance was excellent and highly amused the audience. The company is one of the very best and worthy of the liberal patronage which they will probably receive during the remainder of their tour in this State.

Dr. D. C. Burleigh and family of Hampden, will sail for Europe in the City of Berlin April 3, for a somewhat extended visit abroad. Dr. Burleigh served as an officer in the U. S. Navy during the rebellion.

SEMINARY AND FEMALE COLLEGE. The Maine Wesleyan Seminary and Female College at Kent's Hill opens the spring term very favorably, with about two hundred students. There is a very good religious interest in the school and in the neighborhood. Rev. C. Munger, assisted by Mrs. Clark of New York, is holding a series of meetings. Tuesday evening, R. W. Dunn, Esq., that indefatigable Christian worker, gave an excellent address on temperance to the students and citizens, and after the address led the prayer-meeting.

A FISH STORY. The spring fish story comes from Florida. A Tallahassee paper relates that recently, while a party of ladies and gentlemen were boating on the Wakulla spring, one of the ladies dropped a ring, and it could be seen sinking in the clear water. A trout darted for it and swallowed it. An ingenious young man present immediately borrowed another ring, fastened it to a hook, and let the line down into the crystal water. At the depth of about 90 feet a trout was seen to approach the shining bait, seize and swallow it. The fish was hauled up, cut open, and there lay in its stomach the lost ring.

MAINE CATTLE. Numerous neat cattle are now being shipped from Maine to Boston, and every Monday scores of car-loads go over the road. Monday is the great day for shipping, and last Monday about twenty cars went through Lewiston and Auburn. The most of them were new milch cows and calves, very few beef cattle being among them. There is a great demand in Massachusetts at present for milch cows, and farmers are getting good prices for their stock. Mr. Frost of Monmouth, has shipped a large herd of cows from Auburn, weekly, during the past month.

STATE BOARD OF AGRICULTURE. The Bangor Horticultural Society held a meeting in the Common Council Room yesterday afternoon and elected five delegates to attend a convention in the same place next Thursday morning, at ten o'clock. This convention is made up of five delegates from each Agricultural Society in the county, and the Secretary of the Horticultural Society was instructed to notify the delegates to meet here. The convention is called to elect a member of the State Board of Agriculture from this county, to take the place of Mr. John Thissell, of Corinth, whose term expired Dec. 31st, 1879.

BUSINESS ON THE ST. CROIX. Our Calais correspondent S. writes: Business on the St. Croix is looking better than for years past. Lumber is in good demand and bringing a large price; our river is open and consequently there is considerable shipping. The ice crop is large and our enterprising business men are taking advantage of it. Among the most prominent engaged in shipping and storing in houses, anticipating a rise, are: Waite Bros., Geo. H. Boardman, G. D. King & Sons, W. H. Pike. The ice is pure and will command the highest market price. A cotton factory is talked of and as some of the smartest business men on the river have taken the matter in hand it will probably be a success; outside capital has been promised if there is sufficient interest manifested by our own business men.

OLDTOWN ITEMS. Our correspondent writes: Ice seems to be the favorite and somewhat absorbing topic of the day, and our town desires to furnish its item. On the fifteenth day of March a company was formed here and commenced work the next morning, and within the week erected an ice house eighty by thirty feet in the clear, with twenty-feet posts, and filled it with ice. The building is full timbered and built in a workmanlike and substantial manner and may be used for years. The ice is of the first quality, and being cut inside of a boom, which sheered the anchor ice over the fall, is composed of clear frozen water, blue in color and from eighteen inches to two feet in thickness, which circumstances combine to make the quality of the ice equal to any put up. The quantity is estimated at from one thousand to twelve hundred tons.——We are having a brisk southeast snow storm with a promise by "Probability" of fair weather by and by.

NEWPORT ITEMS. Our correspondent writes: The Bangor Concert Company, assisted by Newport Cornet Band, gave a concert at Meridian Hall last Tuesday evening to a full house. The programme consisted of selections by the Band, song, the "Nightingale," by Mrs. W. F. Shaw, which was a rich treat to all lovers of fine singing. Mrs. S. received a hearty encore and responded with a very pleasing song, finely rendered. This was followed with a cornet solo by Mr. Teague, several humorous songs by Mr. Packard that were well received, and a piano solo by Miss Joy, after which a barrel of flour, dress patterns, handkerchiefs and fancy articles, etc., and brooms enough, with the proper amount of muscle put with them to keep this community clean for the season, were distributed to the audience in an impartial manner. The evening's entertainment concluded with a social dance.——Messrs. Pitman and Garland commenced cutting ice on Newport pond last Monday and found the ice of a poor quality, and have stopped operations.——The ladies of the M. E. church society have a pastry and ice cream supper at the vestry Thursday evening.

THE ROCKLAND MURDERER. We find the following in one of our exchanges: Haynes, the Rockland murderer, has recently made a toy house after the French style. It is about four feet high, by two deep and four long; is as nicely built as the best mansion, with slate roof and fancy chimneys; has two stories, the lower one being devoted to a kitchen and a dining hall, the upper story to a drawing room and best chamber. The floor of the dining hall is inlaid with cherry and mahogany, 1020 pieces of wood being used in laying it; the kitchen is also inlaid, but less expensively. The furnishings are somewhat regal for a small personage. They consist of the usual kitchen paraphernalia, including hard wood tables with drawers in them, roller for long towel, dishes, even to an old lady with specs, who eyes the visitor very suspiciously. In the dining-room or hall a large chandelier pends above a black walnut table on which rests a handsome *tete-a-tete* set, made of wood, painted blue. A sideboard stands at the back of the room—merely as an ornament. The sets in the drawing room and chamber are perfect marvels of mechanical skill and Yankee ingenuity. The floors are tastefully carpeted. A marble fireplace is in the drawing room, and in a rack at its side stand the shovel and tongs all ready to "poke up the fire" which merrily burns behind the grate. The chairs are as nicely made and upholstered as though they had been intended for the President of the United States. The walls and windows of the room are well adorned; and the house, as a whole, is a complete gem.

OLD ORCHARD. The anticipated trouble about the land damages has been overcome and the railroad from Old Orchard Beach to Ellis grove, at the mouth of Saco river, will be built as soon as possible. The directors of the Boston and Maine road have been at Old Orchard to look over the proposed route. The road will be of the same gauge as the Boston and Maine road, and open cars, like those of the Ogdensburg road, will be used for passenger traffic in summer. Work is also progressing on the new pier, and it is thought it will be completed by July 1st. Old Orchard will eventually become one of the most popular seaside resorts in America.

LECTURES AT THE SEMINARY CHAPEL. Rev. N. G. Clark, D. D., of Boston, Secretary of the American Board of Commissioners, for Foreign Missions, will give two lectures on missionary topics to the students of the Theological Seminary, the first one to occur this evening at eight o'clock; the second to-morrow evening at half-past seven. These lectures will be given in the Seminary chapel and the public are cordially invited to attend. Dr. Clark is an able and interesting speaker, and from his long experience and familiarity with the facts will be able to communicate information directly from the headquarters of the great society of which he is chief.

Amusement Notes.

The "Ideal" Uncle Tom's Cabin company will appear in this city in about a month.

The Buskin Club are negotiating for the appearance in Bangor of the McKee Rankin's "Danites," one of the strongest combinations on the road.

Mr. and Mrs. W. J. Florence have for twenty-seven years, the full term of their married life, been playing on the stage together. They never have during that time appeared alone, says the Cincinnati *Commercial.*

The regular Howard Athenæum company has been doing an excellent business in the West. They are at Harry Miner's Theatre this week, and return to Boston on March 20, for one week, after which a tour of New England will be made under the management of Mr. W. H. Whitenect, commencing in Haverhill, April 3d.

The "All the Rage" combination has all its time filled until the middle of next season. Very few of the managers of the theatres where it will appear have seen the piece; but, from their previous dealings with Mr. Hill, were confident that he would touch nothing that was not a success, and therefore offered him dates even before he had brought out the comedy in its present form, in Williamsburg, a fortnight since. Thirteen weeks of the time filled at the opening of next season are in western cities, where great State fairs and exhibitions will be held, and showmen do not need to be told that "fair weeks" are usually the most profitable of the entire year to local theatres. "All the Rage" will be presented in this city April 14th, with the original cast and special scenery.

LINCOLN.

Fusion Majority Growing Beautifully Less.

Mr. Editor: The Fusion majority in Lincoln is growing beautifully less, as the following figures show:

In 1876 at the September election the Fusion majority was 119.

In 1879 at the September election the Fusion majority was 58.

In 1880 at the March election for town officers with party lines strictly drawn, on the test votes on Moderator, Clerk and Selectmen, the Fusion majority was only 42.

MAINE CENTRAL RAILROAD.

Annual Reports

The reports of the officers of the Maine Central Railroad were presented at the annual meeting held at Augusta on Wednesday. We copy the following from President Jackson's report:—

The generally improved condition of business in this State is shown in our traffic returns. Our freight earnings indicated a small increase early in the spring of 1879, and they continued to improve throughout the year, until September, when that portion of our traffic shewed signs of improvement and this continued during the remaining months.

Our gross traffic earnings were $73,689.-29 in excess of those for 1878, and our net traffic earnings were $44.414 62 more than those for that year.

Our trains have been run with regularity, and without serious accident, and no passenger has received any injury. Extensive repairs and improvements have been made at several of our stations, and they are now in such generally good condition that we do not anticipate any occasion for large expenditures in that department for the coming year.

The heavy freshets of the fall of 1878 did little immediate damage to our road bed, yet they developed weak points and made necessary a larger expenditure than ordinary in enlargement of culverts and drains. For that reason our expenditures in that department have been unusually large.

Iron bridges have been erected on the Androscoggin between Topsham and Brunswick, and over Portland street in Portland.

A large number of ties have been placed in the track, and we have laid 2112 tons of steel, against 613 tons in 1878. The old iron rails taken up were sold, so that the substitution of steel for iron cost for the year 1879, $15.72 per ton.

We have now 53 miles of steel rail laid and have purchased 2000 tons more to be laid during 1880. As this purchase was made prior to the recent large advance in price our expenditures in this department for 1880 ought not to be much in excess of those for 1879. The iron bridge just erected over Portland street is intended for a double track, and we hope that during the coming year we may be able to construct a double track to Morrill's Corner, and thus in the future avoid vexatious delays now incident to crossing so many trains on turnouts at the approach of Portland terminus.

The Sandy River Railroad, of two feet gauge, has been completed from Farmington to Phillips (18 miles) and was opened in December, 1879.

We trust that this may prove to be a valuable feeder to the Maine Central, and we have accordingly extended to its promoters every facility in our power to enable them to complete their line and put it in successful operation. There are several other lines projected, of more or less importance to this road, but none of them have yet reached a point where their building is secured.

Meanwhile we have adhered to the policy adopted by the board, to do nothing which shall render the Maine Central liable for any proposed road, while at the same time it gives to those likely to become feeders to our line, all the aid in its power, other than pecuniary.

In the year 1879, we hardly made up the deficiency arising from the business of 1878, and we had besides to pay the large sum of $49,284.34 to the State, for taxes of previous years. Unjust and oppressive as these taxes were, they have now been entirely settled, but our profit and loss account bear witness to the fact that this corporation cannot exist and continue to pay exactions of this character, and we respectfully submit the question whether the people of Maine can afford to break down or impair the value of the securities of this company, held so largely throughout the State by citizens and savings banks, for the sake of any temporary advantage arising from the collection of a tax by the State Treasurer. The savings banks of Maine own $1,089.500 of Maine Central securities, and hold in addition $297,500 as collateral, as appears by the report of the Bank Commissioner just published, and we estimate that at least $6,000,000 of our bonds are owned by citizens of this State.

From Treasurer Cushing's report we learn that the transportation earnings for 1879 were $1,508,377.02, of which $610,-424.79 were from passenger, $793,669 38 from freight, $40,000 from express, $1,-046.73 extra baggage, mail $51,169 33; car use, $12,036.75. The earnings from rent and wharfage were $5,595 51, dividends Dexter
